

Jonathan Eslavi Medina Dávila

Fullstack Developer • Computer Science Engineer

3334436842 | eslavi_jonhas@hotmail.com | Guadalajara, MX | www.linkedin.com/in/eslavi/ | github.com/eslavidaloca

Professional Experience

Systems specialist, Secretary of Administration | GDL, MX | **2023-03 - Current work**

- Lead Developer of most of the informative government's pages.
- Lead Developer in a internal web page that connects to an AWS S3 bucket to manage files.
- Frontend Developer in two web pages where I fixed bugs and implemented new features.
- Backend developer in two Google Analytics projects to use its data.
- Responsible for deploying new systems or a new informative government's page.

Web development Intern, IBM | GDL, MX | **2021-07 - 2022-07**

- Lead Developer in one of our modules, had to fix bugs and implement any feature that were required. Also, created documentation about what was that module for, how it worked, etc.
- Create documentation for other modules in our charge.

Projects Experience

BlueXolo - Open Source Development | **2019-01 - 2021-12**

BlueXolo is a user interface to create test cases for Robot Framework. Worked in collaboration with IBM to develop missing features in this project.

Social Service | **2022-01 - 2022-08**

Collaborated to create a web page for CFE whereas you could have a better control over some areas such as inventory, delivery, warehouses and vacations.

Formation

College - Universidad de Guadalajara CUCEI | **2018-08 - 2022-12**

Address: Blvd. Gral. Marcelino Garcia Barragan Street #1421
